# CONCEPTS FOR PARANORM & ARTCORE

You are invited to take part in a conceptual exhibition project. The project was initiated by the two berlin self-help-galleries "Artcore" and "Paranorm". The exposition of the works will take place Feb.4-23.1988 in both galleries. Enclosed you'll find two ground-plans, so that you can get an idea how the galleries are build.

Artcore and Paranorm are working together since April 1987. Our goal is to create open spaces for everyone to work in, expositions, performance, music, theater, installations or whatever. We work as a non-profit-organisation, we get nor support neither grants from the government. After a lot of group- and one-man-shows we now want to create an open conceptual show.

For us it is exciting to see, what you will do with our rooms, so send us your ideas for possible installations etc. And here are our...

## Conditions:

Size: 21,5cm x 30cm (A4) (or equivalent US-size) -one page

Technique: written text  
(concept; if needed with illustration to be included

extra), english language preferred, but also native language possible, ready for the press(!), don't forget your address, please sign your work.

Subject: Concepts for a possible installation, exposition, performance or whatever, especially designed for the rooms (you can choose one of the two galleries, or you can send concepts for both).

Deadline: Jan.15, 1988

Documentation: We will make a complete catalogue, reproducing all works. This will be available for contributors for the self-costs (sorry, but we cannot afford to send it out free, as we are self-help-galleries without any money - but we think it's better to get printed in a nice catalogue, than just to receive a nasty addresslist or something like that)

No returns of the works.

Coordination: Graf Haufen, Ralf Roszius

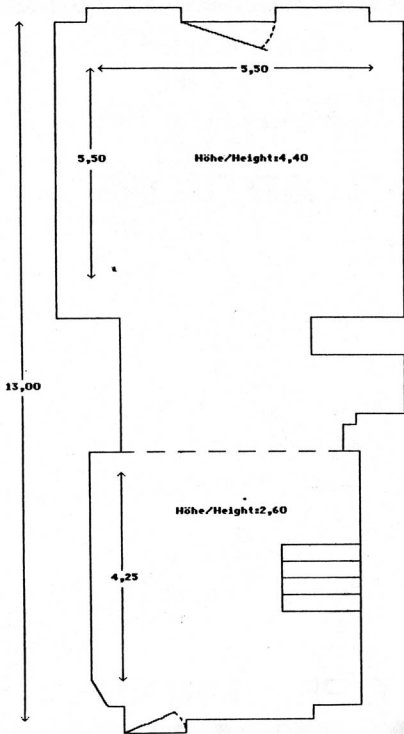

If you have problems or questions then send a message, please include return postage.

Send everything to:
